CORPORATE GOVERNANCE REPORT

Our corporate mission is rooted in our sense of responsibility. We believe it is our duty to deal faithfully with one another, our lenders and shareholders, business partners and society as a whole. Sustainable value creation drives our actions. These principles are the foundation of good corporate governance at Progress-Werk Oberkirch Aktiengesellschaft (the "Company" or "AG") and its Group companies (together, the "Group" or "PWO").

To maintain and strengthen the confidence in the Company's and the Group's management from the shareholders, employees, customers, suppliers and the general public, all executives involved in the Company's management and control have made a commitment to complying with these principles. In implementing these principles, the AG follows the relevant statutory regulations and the standards of good corporate governance commonly used by German businesses. The Articles of Association do not contain any provisions deviating from these standards. The Management Board and the Supervisory Board work together closely, effectively and faithfully. New material information is communicated in a transparent and timely manner, both internally and externally.

STATEMENT ON CORPORATE GOVERNANCE PURSUANT TO SECTIONS 289 A AND 315 (5) HGB

This Statement on Corporate Governance (Section 289 a HGB) of the AG for the Company (Section 289 a HGB) and the Group (Section 315 (5) HGB) contains the Declaration of Conformity of the Management Board and the

Supervisory Board pursuant to Section 161 AktG. It also includes information on the corporate governance practices applied beyond the legal requirements, a description of the working practices of the Management Board and the Supervisory Board, including the composition and practices of the committees established by the Supervisory Board, and other information about the key corporate governance structures.

DECLARATION OF CONFORMITY PURSUANT TO SECTION 161 AKTG

In December 2016, the Management Board and the Supervisory Board issued the following Declaration of Conformity according to Section 161 AktG:

The Management Board and Supervisory Board of Progress-Werk Oberkirch AG declare that the Company will comply with the recommendations of the Government Commission on the German Corporate Governance Code as published on May 5, 2015 with the following exceptions:

CODE ITEM 3.8 | D&O INSURANCE

For the Supervisory Board, the Articles of Association stipulate a deductible equal to half of the fixed annual remuneration of the Supervisory Board member. In the opinion of the Company, this is an adequate arrangement.

CODE ITEM 4.2.3 | CONTRACTS WITH MANAGEMENT BOARD MEMBERS

Previously concluded management contracts provide a cap on the variable remuneration components. A further

cap on remuneration overall would cause considerable practical difficulties due to fluctuations in the allocations to pension provisions. Therefore, the Supervisory Board has refrained from establishing a cap on overall remuneration.

The relevant, valid Declaration of Conformity under Section 161 AktG is available on the Company's website in the Investor Relations section under "Corporate Governance."

CODE ITEM 5.3.3 | NOMINATION COMMITTEE

The Supervisory Board believes it is unnecessary to form a Nomination Committee. As the Supervisory Board consists of only six members, it considers it appropriate for the entire Supervisory Board to be involved with the nomination of Supervisory Board candidates.

CODE ITEM 5.4.1 | COMPOSITION OF THE SUPER-VISORY BOARD

The Supervisory Board strives to bring various types of professional knowledge, expertise and experience to the Supervisory Board, especially in the areas of the automotive sector, finance and commercial law. The low number of Supervisory Board members comprising the Board makes it is impractical to include other aspects for the Board's composition. In this respect, there are deviations from the requirements of Item 5.4.1., particularly concerning the current lack of an age limit and limit on the length of membership set for members of the Supervisory Board. The Supervisory Board is of the opinion that an age limit would generally restrict the choice of qualified candidates and the Company should also have available the expertise of experienced Supervisory Board members. The Supervisory Board does not deem it appropriate to exclude candidates based on age alone or to limit the maximum number of years a member can service on the Supervisory Board.

The Supervisory Board has refrained from setting a specific number of "independent" board members as referred to in Item 5.4.1 (2), because, in practice, there is no uniform definition for interpreting the term "independent." Based on the current assessment of the Supervisory Board together with the employee representatives, all Supervisory Board members are to be regarded as "independent" for the purposes of Item 5.4.2.

The Company has complied with the recommendations of the Government Commission on the German Corporate Governance Code in the version of May 5, 2015 since the submittal of the last declaration in accordance with Section 161 AktG in December 2015 with the exception of the items described.

Oberkirch, December 2016

Progress-Werk Oberkirch AG

The Supervisory Board

The Management Board

RELEVANT INFORMATION ON CORPORATE GOVERNANCE PRACTICES

At PWO, corporate actions are based on principles and values defined and good corporate governance as a matter of course. With regard to corporate management, the AG and the Group are basically treated equally. There are therefore no material differences between their corporate governance structures.

CORPORATE VALUES

With our three key corporate principles "customer orientation, employee orientation, and the pursuit of success," we strive to set the highest standards. These give rise to the corporate values that form the cornerstone of PWO's management culture and serve as a model of corporate governance for our daily activities:

CUSTOMERS, PRODUCTS AND GLOBAL PRESENCE

Perpetually satisfied customers are the focus of all that we do. We are there worldwide, where our customers need us. We offer innovative solutions to meet their requirements. This allows us to enter new markets early on.

EMPLOYEES

Our employees ensure our success. This is why we make sustainable investments in their skills and motivation and offer the best employment conditions possible so that they can perform at their utmost best with enthusiasm and enjoyment. We ensure that they share in the Company's success and that they receive performance-based compensation and have a balanced remuneration structure throughout the corporate hierarchy.

INVESTORS, SUPPLIERS AND THE GENERAL PUBLIC

We want to see the value of our Company grow for the long-term and, therefore, focus our interests on our investors and the general public. We are fair to our suppliers. Our long-term strategic vision strengthens our market position. We are actively shaping the future worldwide. Our business approach secures our profits. Our Company is a part of society. This is the reason we act socially, economically and environmentally responsible at all times.

GOVERNANCE PRINCIPLES

Our management culture is based on the personal responsibility and initiative of our managers. This is reflected in our governing principles. These principles are an expression of our attitude and give our managers a policy framework for their daily interactions with employees.

We believe that a trustworthy cooperation of managers and employees is based on a cooperative attitude, the ability to coordinate and an informative and delegative management style.

TRANSPARENCY

The Management Board is committed to meeting the legal requirements and stock-exchange standards for timely reporting and ensuring the equal treatment of all shareholders (annual and half-year reports; quarterly statements, ad-hoc announcements; managers' transactions and voting rights notifications made aware to the Company) and to transparent communication with the public.

The management participates in capital market conferences and holds regular capital market days at its head-quarters in Oberkirch, where it addresses the questions of analysts, investors and media representatives. Important information that could influence an opinion about the Group's outlook is made publically available as promptly as possible. All reports and announcements as well as other information, such as all information about the Annual General Meeting and the Articles of Association, including information on the professional activities and other mandates of the Supervisory Board members, can be found on our website at www.progress-werk.de/en/investor-relations.

RISK MANAGEMENT

Good corporate governance includes the reasonable limitation and responsible handling of all risks associated with business decisions. The Company has introduced a modern and effective risk management system. This system is regularly reviewed for its effectiveness and is continuously developed, particularly in view of changes in the relevant national statutory requirements, both at home and internationally.

EQUAL PARTICIPATION OF MEN AND WOMEN IN MANAGEMENT

We firmly believe that professional expertise and leadership skills should be the sole deciding criteria for filling management positions. In this context and with respect to the relevant legal requirements, the Supervisory Board set a target ratio for the proportion of women in Management Board and Supervisory Board at zero percent until June 30, 2017. The target for the percentage of women in the first level of management is also zero percent. The target for the second level is 12.5 percent.

CODE OF CONDUCT AND BUSINESS PARTNER CODE OF CONDUCT

Assuring the legally compliant and ethical behavior of our employees is a central concern. This is why we have combined our guidelines for compliant behavior into a Code of Conduct whose contents can be viewed at any time during normal business hours at our offices. A summary of the Code's key contents is available on our website.

We believe it is also important that specified minimum standards for human rights, working conditions, corruption prevention and environmental protection are observed along the entire value chain. Accordingly, we ask our business partners for their explicit commitment to our sustainability strategy. Since October 2015, we have published our requirements for their behavior in a Business Partner Code of Conduct, which is available on our website and has been implemented Group-wide.

THE WORKING PRACTICES OF THE MANAGEMENT BOARD AND SUPERVISORY BOARD

As a stock corporation under German law, Progress-Werk Oberkirch AG is subject to the relevant statutory provisions regarding management and supervision. Its dual management and control structure consists of a Management Board and a Supervisory Board. The Management Board and the Supervisory Board base their management and monitoring of the Company on the German Corporate Governance Code in its relevant current version.

MANAGEMENT BOARD

The Management Board of Progress-Werk Oberkirch AG currently consists of three members and takes sole responsibility for the Company's operational management and strategic development. The principles of cooperation are summarized in the Board's Rules of Procedure, and the assignment of duties within the Board is documented in the Schedule of Responsibilities.

The Management Board conducts the business of the Company and bears the overall responsibility for its common goals, plans and policies. Irrespective of the overall responsibility of the Management Board, each member acts on his own responsibility in his own field

but is advised to keep departmental-related interests subordinate to the overall interests of the Company. When the activities and transactions of one board member's responsibility coincide with that of one or more of the other board members, the responsible board member must attain the agreement from the other board members involved in advance. If an agreement is not reached, then each participating board member is obliged to bring a resolution to the entire Board.

Each board member is also obliged to bring a resolution to the entire Management Board when the activities under another board member's responsibility cause reason for concern and these concerns cannot be resolved by discussion with the responsible board member. Irrespective of these principles, the consent of the entire Board is required for measures and transactions that are conducted by the Company or the Group and are either of particular importance or pose an extraordinary economic risk.

The speaker of the board coordinates the management of the Company via the entire Board. The board members are obliged to regularly inform the speaker of the board of any major transactions and on the progress of business in their respective departments. Board meetings should take place at regular intervals and, if possible, at least bi-weekly and on dates established far in advance.

The Management Board can take decisions with a simple majority of votes cast and by a simple majority of its members outside of the regularly scheduled meetings, as long as unanimity is not required by the mandatory statutory provisions. An abstention shall not be considered as a vote. In a tied vote, the vote of the speaker of the board shall be decisive. The Board shall take its decisions unanimously when possible.

The Management Board regularly informs the Supervisory Board in accordance with statutory requirements in a timely and comprehensive manner on all key issues regarding business activity and the business trends of the Company and the Group. This includes the intended business policy and other fundamental issues of corporate planning, significant transactions that could be important to the liquidity and profitability of the Company or the Group, as well as the current profitability and earnings situation as well as the risk situation and risk management. In addition, the Management Board reports on investments, the ongoing development projects and the strategic development of the Company and the Group.

In the Management Board's Rules of Procedure, a list defines the transactions and activities that require the prior approval of the Supervisory Board.

SUPERVISORY BOARD

The Supervisory Board monitors and advises the Management Board in the management of the Company. Duties and responsibilities are derived from legal requirements and the Company's Articles of Association as well as the Supervisory Board' Rules of Procedure. The decisions of the Supervisory Board are passed by a simple majority of votes unless the law requires otherwise. In the event of a tied vote, the vote of the chairperson decides.

The Supervisory Board of Progress-Werk Oberkirch AG consists of six members. Two-thirds of the Supervisory Board is comprised of shareholder representatives, and one-third is comprised of employee representatives. Mr. Ulrich Ruetz is a financial expert as defined in Section 100 (5) AktG.

The members of the Management Board generally participate in Supervisory Board meetings unless the Supervisory Board makes an alternative arrangement.

The Rules of Procedure stipulate the formation of committees. There are currently two committees: the Personnel Committee and the Audit Committee. Their powers are detailed in the Rules of Procedure of the Supervisory Board.

The Personnel Committee prepares the Supervisory Board's personnel and compensation decisions. When making compensation decisions, the Committee consults with outside consultants, if necessary. Its members include the chairperson of the Supervisory Board, the chairperson's deputy, and a further member of the Supervisory Board who is nominated for election by the Supervisory Board's shareholder representatives. The Personnel Committee is chaired by the Supervisory Board's chairperson.

The Audit Committee rather than the Supervisory Board conducts the preliminary examination of the financial statements, the management report and the auditor's audit report. The Audit Committee also has other assigned duties laid out in the German Corporate Governance Code. The Committee consists of the Supervisory Board's chairperson, one shareholder representative and a Supervisory Board employee representative. The Supervisory Board may also appoint other Supervisory Board members to the Audit Committee.

The chair of the Committee should not be held by the chairman of the Supervisory Board. The chairpersons report to the Supervisory Board on the consultation and resolutions of the respective committees. Further details on the composition and working practices of the Supervisory Board and its committees, particularly the number and subject of the meetings in fiscal year 2016, can be found in the Report of the Supervisory Board.

ESTABLISHING TARGETS FOR THE PARTICIPATION OF WOMEN IN MANAGEMENT POSITIONS

Pursuant to Section 76 (4) AktG, the Management Board set targets for the proportion of women in the two management levels below the Management Board of zero percent for the first level and 12.5 percent for the second level, which are in effect until June 30, 2017. These two ratios reflect the current number of women at the two levels of management. The Management Board intends to consider diversity as well as the candidate's expertise and qualifications when filling these positions. However, because turnover at the AG has traditionally been low, increasing the proportion of women can only be accomplished over a longer period.

For the proportion of women on the Supervisory Board and the Management Board, the Supervisory Board under Section 111 (5) AktG set a target corresponding to zero percent, which is also the current percentage of women in these bodies and continues to be in effect until June 30, 2017. The determination of these targets is based, for one, on the consideration of the fact that the terms of office for shareholder representatives on the Supervisory Board and the Management Board members exceed this date so that there is no legal means for an increase in the proportion of women in both bodies. In the case of the Management Board, there is also the fact that the Supervisory and Management Boards agree the most important criteria when filling management positions should be technical expertise and leadership skill and that these criteria currently limit the ability to increase the proportion of women on the Management Board given the automotive industry's current situation.

ADDITIONAL CORPORATE GOVERNANCE DISCLOSURES

SHAREHOLDERS AND THE ANNUAL GENERAL MEETING

The Management Board feels a special obligation toward the shareholders. As owners of Progress-Werk Oberkirch AG, they provide the capital for maintaining and expanding their Company's international market position and take the role of entrepreneur. The most important obligation of the Management Board, therefore, is to secure Progress-Werk Oberkirch AG's viability and permanently strengthen the competitiveness of the Company and its subsidiaries, while at the same time achieving a sustainable and attractive return on the capital provided.

Shareholder interests are taken into consideration, and their rights are fully acknowledged. All shareholders are treated equally. The shareholders of Progress-Werk Oberkirch AG exercise their rights at the Annual General Meeting, which is held at least once annually. Every shareholder who registers by the deadline is allowed to attend the Annual General Meeting. Shareholders who cannot attend the Annual General Meeting in person can exercise their voting rights through a credit institution, a shareholders' association, a proxy set up by the Company, or another nominee of their choice. All documents and information regarding the Annual General Meeting are made available on our website.

DIVERSITY IN THE MANAGEMENT BOARD AND SUPERVISORY BOARD

The Supervisory Board intends to pay close attention to diversity when appointing future Management Board members. The Supervisory Board also welcomes the intention of the German Corporate Governance Code to take into account the criterion of diversity in the composition of the Supervisory Board and feels generally committed to this aim. With respect to the reasons for deviating from Code Item 5.4.1 of the German Corporate Governance Code listed in the Declaration of Conformity, the Supervisory Board considers the specification of concrete objectives regarding its composition, including with regard to the criterion of diversity, to be inappropriate. Reference is made to the Statement on Corporate Governance with respect to setting an objective for the percentage of women on the Management Board and Supervisory Board.

MANDATES OF THE MANAGEMENT ACCOUNTING AND AUDITING BOARD

Outside of the PWO Group, Bernd Bartmann serves as the deputy chairman of the Supervisory Board of avenit AG, Offenburg. He is also a member of the Advisory Board of the Wirtschaftsverband Industrieller Unternehmen Baden e. V. (Chamber of Industry and Commerce in Baden) and a member of the Advisory Board of the Sparkasse Offenburg/Ortenau. Dr. Volker Simon and Johannes Obrecht hold positions at the Offenburg University of Applied Sciences as members of the board of trustees and the founders committee.

In the fiscal year under review, there were no conflicts of interest among Management Board members that were required to be disclosed to the Supervisory Board.

SHAREHOLDINGS OF THE **GOVERNING BODIES**

Dr. Georg Hengstberger, who is a member of the Company's Supervisory Board, is a shareholder and the managing director of Consult Invest Beteiligungsberatungs-GmbH, Böblingen. As of the end of fiscal year 2016, this entity held 46.62 percent of the outstanding shares of Progress-Werk Oberkirch AG.

During the past fiscal year, the Company was made aware of two transactions that were subject to statutory disclosure under Article 19 of the Market Abuse Regulation (MAR) and, until June 2, 2016, Section 15 a of the German Securities Trading Act (WpHG; old version). Notifications of managers' transactions under Article 19 MAR and Section 15 a WpHG (old version) are available on our website at www.progress-werk.de/en/investor-relations/pwo-shares/ managers-transactions.

STOCK OPTION PROGRAMS

Stock option programs or similar stock-based incentive systems did not exist in fiscal year 2016, and there are currently none in existence.

The financial statements and half-year financial report of the Group are prepared in accordance with International Financial Reporting Standards (IFRS) as applicable in the EU. These accounting principles are also applied in full to the Group's quarterly statements. The Company has also utilized the option to reduce the report's scope, which is permitted by the regulations of Deutsche Börse AG for companies listed in the Prime Standard. Progress-Werk Oberkirch AG's financial statements are prepared in accordance with the provisions of the German Commercial Code.

The consolidated financial statements and the financial statements were audited by Ernst & Young GmbH Wirtschaftsprüfungsgesellschaft, Stuttgart, who was elected by the 2016 Annual General Meeting. The Supervisory Board has agreed with the auditor that the Audit Committee chairperson shall be informed immediately of any disqualification or bias issues during the audit that cannot be immediately resolved. The auditor should also promptly report to the Supervisory Board on all important facts and events that arise during the audit and are material for carrying out the tasks of the Supervisory Board.

REMUNERATION REPORT

The remuneration report explains the principles of the remuneration system for the Management Board and the Supervisory Board and discloses the remuneration of the members of the Management Board and Supervisory Board in fiscal year 2016. The remuneration report is part of the management report and is thereby included in the 2016 Annual Report.
